XÂY DỰNG ỨNG DỤNG MYSHOP - PHẦN 1

Họ tên và MSSV: Lê Phước Lợi B2014850

Nhóm học phần: 02

Bước 0: Chuẩn bị môi trường làm việc

Cài đặt Flutter và các môi trường làm việc:

```
Windows PowerShell
Copyright (C) Microsoft Corporation. All rights reserved.

Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows

PS C:\flutter> flutter doctor
Doctor summary (to see all details, run flutter doctor -v):

[/] Flutter (Channel stable, 3.13.1, on Microsoft Windows [Version 10.0.22621.2134], locale en-US)

[/] Windows Version (Installed version of Windows is version 10 or higher)

[/] Android toolchain - develop for Android devices (Android SDK version 33.0.2)

[/] Chrome - develop for the web

[/] Visual Studio - develop Windows apps (Visual Studio Community 2022 17.7.3)

[/] Android Studio (version 2022.3)

[/] VS Code (version 1.81.1)

[/] Network resources

* No issues found!
PS C:\flutter>
```

Cài đặt Git:

```
Windows PowerShell × + ∨

PS C:\> git --version
git version 2.42.0.windows.2

PS C:\> |
```

Bước 1: Khởi tạo dự án

Dùng VS Code mở thư mục dự án, hiệu chỉnh nội dung tập tin lib/main.dart:

```
main.dart - ct48402-myshop-LePhuocLoi4850 - Visual S...
      nain.dart X
                       ! pubspec.yaml
                                                                          5 □ €
      lib > 🦠 main.dart > ...
              import 'package:flutter/material.dart';
             Run | Debug | Profile
             void main() {
             runApp(const MyApp());
              class MyApp extends StatelessWidget {
出
               const MyApp({super.key});
               @override
L
        11
               Widget build(BuildContext context) {
                  return MaterialApp(
        12
        13
                    title: 'MyShop',
                    debugShowCheckedModeBanner: false,
                    theme: ThemeData(
fontFamily: 'Lato',
                      colorScheme: ColorScheme.fromSwatch(
                        primarySwatch:  Colors.purple,
                      ).copyWith( // ColorScheme.fromSwatch
                        secondary: Colors.deepOrange,
        20
        21
                      ),
                    ), // ThemeData
                    home: Scaffold(
                      appBar: AppBar(
                       title: const Text('MyShop'),
                      ), // AppBar
                      body: const Center(
                        child: Text('Welcome to MyShop'),
                      ), // Center
                    ), // Scaffold
        30
                  ); // MaterialApp
